

THE NATURAL SUPPLEMENT FOR SKIN HEALTH & OVERALL WELLBEING

OUR HEALTH AND SKIN ARE UNDER CONSTANT ATTACK!

Every day the body is subjected to environmental factors that trigger stress and the production of free radicals. When free radicals are produced in excess and antioxidant defence systems are overwhelmed, it leads to **OXIDATIVE STRESS** which can result in FATIGUE, CHRONIC INFLAMMATION, WEAKENED IMMUNITY, POOR HEALTH AND UNEVEN SKIN TONE.

IT IS IMPORTANT TO NEUTRALISE FREE RADICALS IN ORDER TO REGAIN VITALITY, STRONG IMMUNITY AND HEALTHY SKIN.

WHAT IS OXIDATIVE STRESS?

Oxidative stress is essentially an imbalance between the production of free radicals and the ability of the body to counteract or detoxify their harmful effects through neutralisation by antioxidants. This harmful process can negatively affect several cellular structures, such as membranes, lipids and proteins.

It can lead to many conditions in the body. Some of these include neurodegenerative diseases, skin spots and advanced aging, chronic fatigue syndrome, obstructive lung diseases such as asthma and chronic obstructive pulmonary disease, heart and blood vessel disorders, and inflammatory diseases.

SOD PROVIDES EXCEPTIONAL PROTECTION AGAINST FREE RADICAL DAMAGE & OXIDATIVE STRESS

- An enzyme known as Super Oxide Dismutase (SOD) is one the body's most powerful antioxidants
- SOD helps to increase the production of antioxidant enzymes essential to protect and minimise cell damage
- Until now, there had not been an effective oral SOD supplement since SOD is dissolved quickly in the stomach where it is quickly destroyed, and virtually no SOD enters the bloodstream

GliSODin's PATENTED FORMULATION HAS SOLVED THIS!

THE 1ST ORALLY EFFECTIVE FORM OF SOD

- ✦ GliSODin is the **first patented technology** that combines superoxide dismutase (SOD), derived from melons, with Gliadin, which acts as a protective barrier, **making the SOD stable within the body**
- ✦ GliSODin activates the body's own internal antioxidant defence system, including SUPER OXIDE DISMUTASE (SOD), glutathione peroxidase and catalase: the 3 essential primary internal antioxidants
- ✦ GliSODin is an innovative natural SOD-based complex found in **MELON EXTRACT COMBINED WITH WHEAT PROTEIN**

"GliSODin represents an approach to oxidative stress that is entirely different from the administration of conventional antioxidants (for example, vitamins). Instead of correcting a deficiency, it activates the antioxidant defence system by mimicking the body's response to oxygen aggression by means of an orally administered formulation."

Pr. Xavier Leverve, Professor in nutrition, MD, PhD

 GliSODin®

MORE THAN 15 YEARS OF RESEARCH ON FIGHTING OXIDATIVE STRESS AND ITS CONSEQUENCES ON AGING

EXPERTISE

Made in France. Developed by nutritionists and formulated for optimal results.

NATURAL

Food supplements formulated from carefully selected natural ingredients.

EFFICACY

The efficacy of the formulae has been demonstrated by rigorous scientific and clinical studies published in international journals.

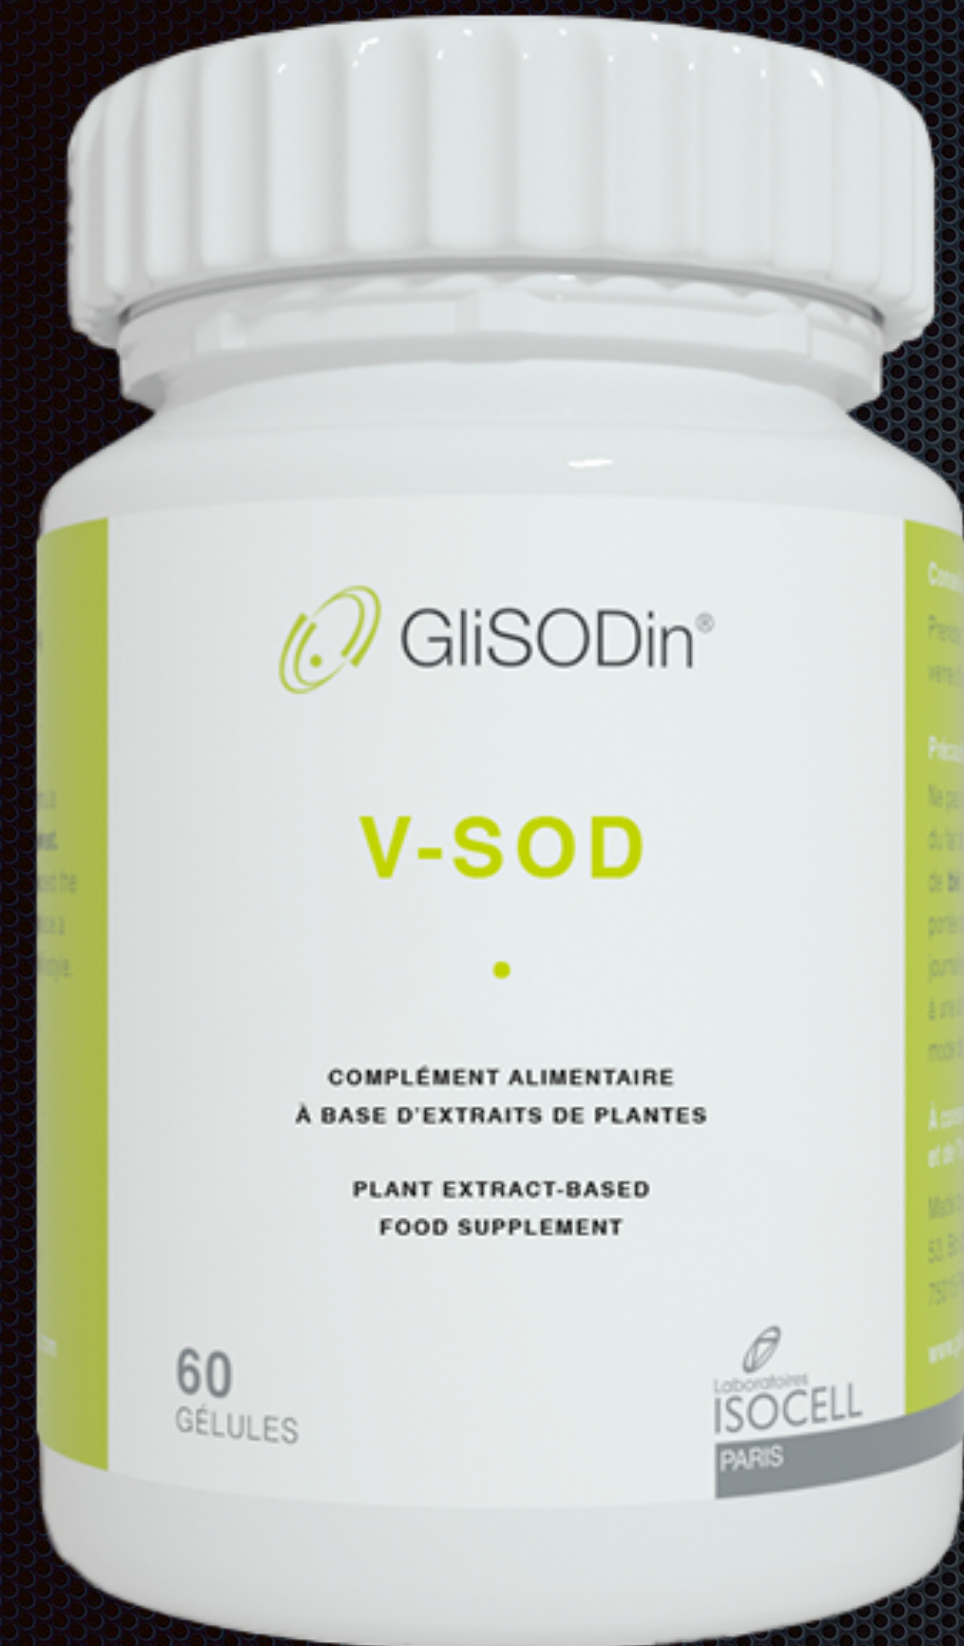

WHAT IS GliSODin?

V SOD

GliSODin V SOD is a natural supplement clinically proven to improve the appearance of **vitiligo and other pigmentation disorders**. 100% PLANT-BASED, 100% SAFE

- ✦ SOD in V-SOD is naturally present in the body
- ✦ it is a major antioxidant which acts as a real shield against free radicals
- ✦ However, SOD is not renewed by food and its activity decreases with age or in oxidative situations
- ✦ GliSODin promotes the natural production of SOD and preserves the antioxidant activity of the body
- ✦ With vitiligo, skin cells show higher levels of oxidative stress which leads to the destruction of melanocytes.

+50%

MORE REPIGMENTATION
WHEN COMBINED WITH
ULTRAVIOLET B

50% MORE REPIGMENTATION WHEN COMBINED WITH ULTRAVIOLET B versus using UVB alone, as proven by a clinical study conducted for 6 months on 50 patients.

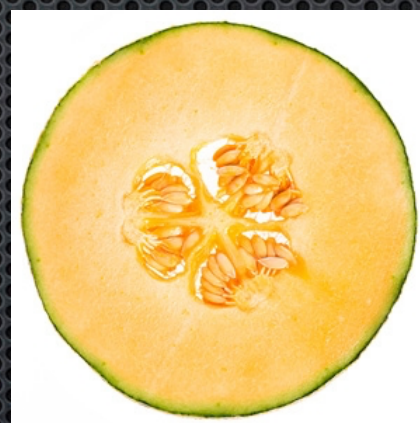

Fontas, E., Montaudié, H., & Passeron, T., 2021, J Eur Acad Dermatol Venereology

STRENGTHEN THE BODY

GliSODin is a natural supplement formulated with an innovative combination of Super Oxide Dismutase (SOD) derived from a melon extract protected by Gliadin, a wheat protein.

- Protects cells from oxidative stress generated by environmental factors (UV, pollution, toxins, etc.)
- Reduces the harmful effects of inflammation by boosting the immune response (dark spots, melasma)
- Prevents the appearance of benign summer light eruption (a form of heat rash) when combined with sunscreens
- Boosts immunity and reduces DNA damage

Featured ingredients:

Melon SOD
Antioxidant
Enzyme

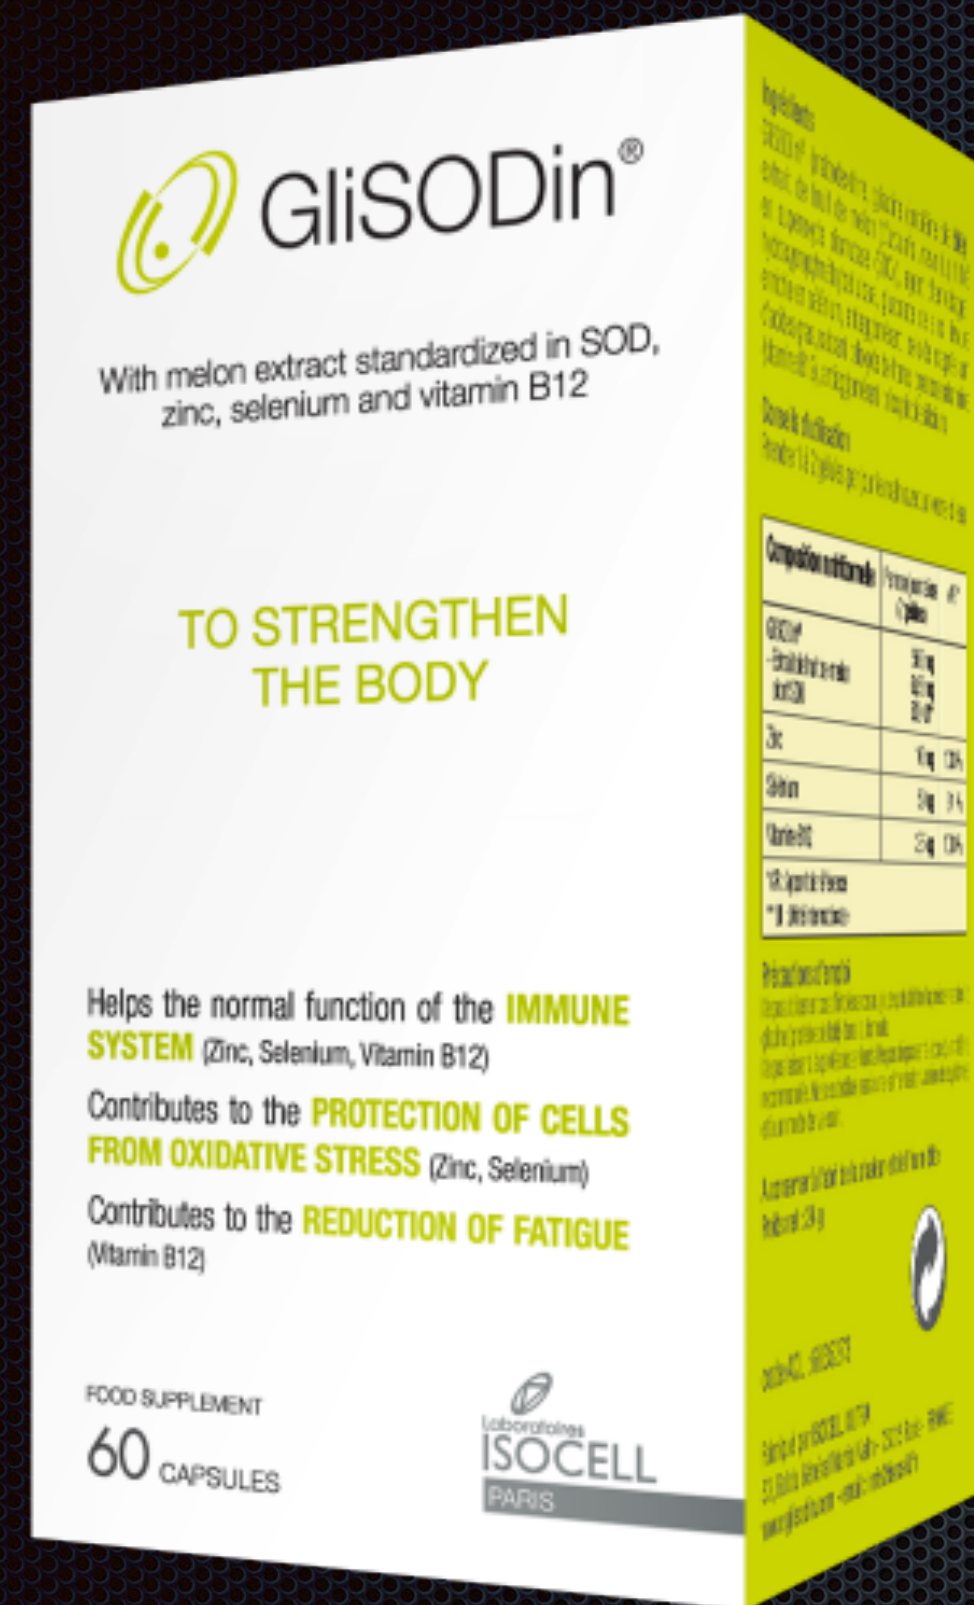

Wheat
Protective
protein

Selenium
Secondary
antioxidant

Zinc
Contributes to the
maintenance of
normal skin

ANTI-AGING

ANTI-AGING FORMULA prevents and fights signs of aging. It is formulated to provide essential nutrients that **strengthen and protect the skin from within**. The body's capacity to fight oxidative stress is boosted and the aging process is delayed.

- ✦ Reduces the signs of aging and protects the skin from damage caused by free radicals
- ✦ Rejuvenates and hydrates skin to restore a healthy natural glow
- ✦ Improves skin elasticity
- ✦ Reduces fine lines and wrinkles
- ✦ Reduces inflammation that causes flaky dry skin, skin rashes and redness

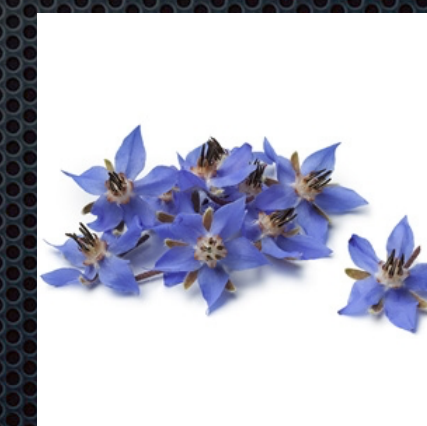

Featured ingredients:

GliSODin
The Antioxidant
Enzyme

Krill Oil
Source of
omega 3

Borage Seed Oil
Source of
omega 6

Sea Buckthorn
Berry Oil
Source of omega 7

SKIN BRIGHTENING

The **GliSODin** SKIN BRIGHTENING formula helps you avoid the appearance of imperfections. It acts internally where damage takes place. Day after day, your skin regains its beauty, radiance and evens out its skin tone.

- ❖ Promotes a clear and uniform complexion
- ❖ Prevents, protects and corrects sun damage by acting as an internal sunscreen
- ❖ Helps reduce hyperpigmentation
- ❖ Maximises depigmentation peeling or creams
- ❖ Improves skin recovery and reduces risk of pigment change after laser treatment

Featured ingredients:

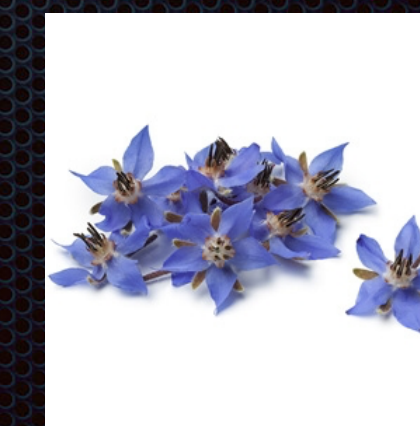

GliSODin
The Antioxidant
Enzyme

Lycopene
Pigment from
tomato

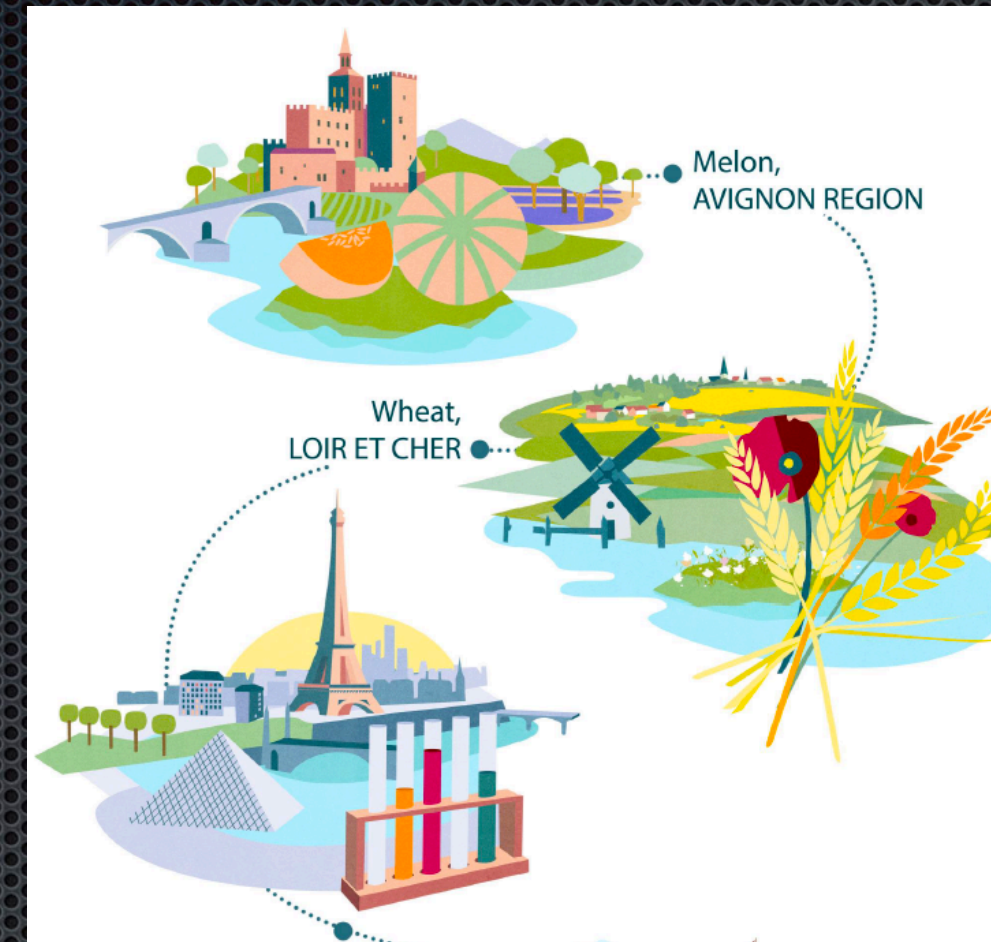

Vitamin C
Acerola berries

Borage Seed Oil
Source of
omega 6

MORE THAN 15 YEARS OF RESEARCH ON FIGHTING OXIDATIVE STRESS AND ITS CONSEQUENCES ON HEALTH & AGING

NON-GMO

No bovine, ovine, porcine origin, or genetically modified organisms (GMO) are used in these products

MADE IN FRANCE

Manufacturing strictly complies with European regulations & guarantees the quality and traceability of GliSODin formulae

VEGETARIAN

All our active ingredients are extracted from natural, plant-based sources and the quantity in the formulae is optimal

REGULATORY COMPLIANCE

In accordance with European directive 2002/46/EC
